Subject: State of WA files to petition to intervene in ASLB process on YMI application

Message: Wash Petition 3-3-10.pdf (3 MB)

Hello again -

Attached is the petition filed by the State of Washington with the Atomic Safety and Licensing Board (ASLB), to intervene and oppose DOE's motion to withdraw the license application for a repository at Yucca Mountain. Note that the filing says "anticipated motion by DOE"; as you know, DOE's motion to withdraw came in last night so this petition and DOE's "crossed in the mail", so to speak.

South Carolina and Washington have now filed wit petitions to intervene with the ASLB. I will keep you posted on any additional filings and actions taken by the ASLB.
