 Subject: Parties' responses to 5 petitions to intervene in proceeding re: NM license application - email 2

Message: 3-29-10 4NC Answer to Petitions to Intervene.pdf (79 KB) Nye Answer.pdf (93 KB)
 Inyo Answer.pdf (54 KB)

The attached documents were filed by parties currently in the hearing process on the DOE application for a high-level waste repository at Yucca Mountain in response to **all five** petitions to intervene (only responses to WA, SC, and Aiken County were due yesterday; responses to NARUC and the Prairie Island Indian Community are due April 9th)

In short to give you a sense of the attached filings, the four NV counties of Churchill, Esmeralda, Lander, and Mineral have no objection to the petitioners as long as requirements in 10 CFR Part 2 are met (this section of regulation lays out rules of practice for licensing proceedings). Nye County supports the petitions, and Inyo County takes no position on the petitions.

One more e-mail will follow with NRC staff responses
