Message | 4-12-10 DOE Appeal.pdf (2 MB)

Hi again -

Today, the Department of Energy filed a petition with the NRC requesting that the Commission "take immediate interlocutory review" of the Board's April 6, 2010 Memo and Order which suspended the briefing and consideration of DOE's motion to withdraw the license application for a high-level waste repository at Yucca Mountain, NV. DOE also requests that the Commission conduct this review on an expedited basis and, upon review, to reverse the Board's action. The petition as filed is attached.

There is no specific timeframe or deadline for Commission action. I will of course keep you posted.
