List of Planned Topical Report Submittals for FY2010 through FY2014

This letter provides the status of AREVA NP Inc.'s (AREVA NP) topical reports that are being developed for future submittal to the NRC for FY2010 through FY2014. This listing of future reports, Attachment 1, includes the scheduled submittal dates by month and year. The estimated number of licensed facilities to which each report may apply is also included. Additionally, the attachment indicates those reports that are being submitted for review, those reports being submitted for information only and those that contain proprietary information.

Because of the volume of topical reports planned for submittal in 2012, AREVA NP requested a meeting with the NRC in early August to address the management and review of the submittals.

Attachment 2 provides a high level plan for phase-out of AREVA NP legacy fuel rod design codes.

AREVA NP considers the material contained in the enclosed attachments to be proprietary. As required by 10 CFR 2.390(b), an affidavit is enclosed to support the withholding of the information from public disclosure.

If you have any questions related to this letter, please contact Ms. Gayle F. Elliott, Product Licensing Manager at 434-832-3347 or by e-mail at gayle.elliott@areva.com.

We look forward to discussing the status of these reports with you.

Sincerely,

Ronnie L. Gardner
