SUBJECT

Cyclotron Maintenance Schedule

SUMMARY

Q: What is the cyclotron maintenance schedule through the end of 2010?

A: He will provide it to me next week.

Q: Have there been any events/unusual occurrences (e.g., leaks of radioactive material, loss of material, etc.?).

A: No. Regarding the 8 recent Octreoscan binding complaints regarding a single lot that were sent to a single customer, what was done to determine the cause? Since no other complaints were received from customers about the same lot, the licensee suspected the problem was probably due to the QC tests done by the customer. The 8 products involved with the complaints were not made in chronological order.

Organization/Staffing Changes:

Jim Schuh went to corporate office in Earth City, MO.

Bryan Lowery is the new Environmental Health and Safety Manager as of about a month ago.

New Processes/Activities:

None

Events/Self-Identified Violations or Safety Concerns:

Audit done resulted in several findings and recommendations. The audit was done by Jim Schuh and Petten staff.

Radiation Dose Trends:

Uptrending because of increased cyclotron use due to Mo-99 shortage.

Major Processing Schedule Changes:

Q: What is the status and plan for the new DTE facility?

A: Estimate about a year from completion.

ACTION REQUIRED

Place in ADAMS.
