===== update 2010-06-07-1523 ET =====

===== update 2010-06-04-1035 ET =====

The NRC staff makes the following observation about Table A, Limited Exam Weld List, pdf page 5/21 in your application letter NG-09-0539 dated July, 30, 2009, as a consequence of the RAI conference calls recently (June 3, 2010) concluded:

- In your RAI response due on June 16, 2010, consider changing the item number of CUA-J024 from R1.16 Item Number, which in EPRI terminology represents IGSCC susceptible, to R1.10.

The change is not essential to the Safety Evaluation, but appears to be more appropriate based on the exchange of information between parties to the June 3, 2010, conference call.

If there are any questions, call Karl Feintuch at 301-415-3079.

===== update 2010-06-03-1700 ET =====
