Subject: Follow-up to Response to Violation Notice M-2008-02001, Quad Cities Nuclear Power Station

Reference: Letter from Exelon Generation Company, LLC (T. Tulon) to Illinois EPA (Ms. B. Booker), "Response to Violation Notice M-2008-02001, Quad Cities Nuclear Power Station," dated May 22, 2008

Dear Ms. Booker:

As previously conveyed in the referenced letter, Exelon Generation Company, LLC (Exelon) remains fully committed to addressing the tritium concentrations in the vicinity of the Service Building/Turbine Building interface at the Quad Cities Nuclear Power Station (Quad Cities). Exelon will continue to cooperate with the Illinois Environmental Protection Agency (IEPA) and provide updated information regarding the steps taken and planned to address the tritium concentrations. As part of these efforts, Exelon is currently preparing a migration control plan that will be shared with IEPA by July 18, 2008.

Based upon recent verbal communications with IEPA's technical staff, Exelon does not believe there is a need for a formal meeting at this time. However, we will continue to discuss with IEPA their technical views on the investigation and responsive activities at Quad Cities.

If you should have any questions or require additional information, please feel free to contact Ms. Vicki Neels at 309-227-3200 or Mr. Zigmund Karpa at 610-765-5841.

Respectfully,

Timothy J. Tulon
Site Vice President
Quad Cities Nuclear Power Station
