

MY NAME IS ANNE CRAIG. I LIVE IN ASHEVILLE, N.C.

I'VE BEEN INTERESTED AND CONCERNED ABOUT  
THE PRODUCTION OF ELECTRICITY BY NUCLEAR  
MEANS FOR OVER 30 YEARS. I'M NOT A SCIENTIST,  
I'M NOT AN EXPERT. BUT WHAT I HAVE LEARNED IS  
THIS:

NUCLEAR POWER IS 'DIRTY.' FROM THE MINING OF  
URANIUM TO THERMAL POLLUTION TO THE WASTE,  
IT IS NOT CLEAN, NOT RENEWABLE AND IT IS  
DANGEROUS.

I BELIEVE THAT REGULATORY AGENCIES' MISSIONS  
ARE TO PROTECT THE PEOPLE'S INTEREST AND  
SAFETY WHICH SHOULD NOT BE CONSIDERED  
EXPENDABLE. THE PRODUCTION OF NUCLEAR  
POWER COMPROMISES OUR SAFETY IN SEVERAL  
AREAS INCLUDING <sup>our right to</sup> ~~BEING~~ CLEAN, NON  
RADIOACTIVE WATER SOURCES, ~~FILLED WITH WATER~~  
~~LIFE~~. WHEN ALTERNATIVES EXIST THAT WOULD

**PROVIDE ENERGY IN SAFER, CLEANER AND MORE  
SUSTAINABLE WAYS, THAT WOULD PROVIDE JOBS  
AND LEAVE OUR CHILDREN AND OUR CHILDREN'S  
CHILDREN A SAFER, CLEANER FUTURE, WHY IS  
NUCLEAR ENERGY EVEN BEING CONSIDERED? IT IS  
NON-SENSICAL. IT IS ULTIMATELY SUICIDAL.**

**THANK YOU FOR LISTENING.**
