Subject: Response to U.S. EPR Design Certification Application RAI No. 381, FSAR Ch. 3 OPEN ITEM, Supplement 1

Getachew,

AREVA NP Inc. provided a schedule for a technically correct and complete response to the four questions for RAI No. 381 on May 20, 2010, one of which was affected by the work underway to address NRC comments from the April 26, 2010, audit.

Based upon the civil/structural re-planning activities and revised RAI response schedule presented to the NRC during the June 9, 2010, Public Meeting, and to allow time to interact with the NRC on the responses, the schedule for 03.07.04-6 has been changed. The schedule for the remaining 3 questions remains unchanged.

The revised schedule for the technically correct and complete response to these questions is provided below.

RAI 381 — 03.09.06-15	July 14, 2010
RAI 381 — 03.09.06-16	July 14, 2010

Subject: U.S. EPR Design Certification Application RAI No. 381 (4421,4529),FSAR Ch. 3 OPEN ITEM

Attached please find the subject requests for additional information (RAI). A draft of the RAI was provided to you on March 18, 2010, and discussed with your staff on April 15. Drat RAI Question 03.09.06-17 was modified as a result of that discussion. The questions in this RAI are OPEN ITEMS in the safety evaluation report for Chapter 3, Group 1 sections in Phases 2 and 3 reviews. The schedule we have established for review of your application assumes technically correct and complete responses within 30 days of receipt of RAIs. For any RAIs that cannot be answered within 30 days, it is expected that a date for receipt of this information will be provided to the staff within the 30 day period so that the staff can assess how this information will impact the published schedule.
