Mr. Smith, the attached table provides the current status of nonattainment, maintenance, and approaching nonattainment areas in Southern Idaho (I included a link to EPA's Idaho NAA summary page). I have also attached Idaho's recommendation to EPA for the boundaries of the Franklin County portion of the Cache Valley PM2.5 NAA. EPA has indicated that they intend to expand the boundary somewhat – encompassing more of the Cache Valley but not all of Franklin County. I hope this information is useful to you. If you have any questions, please feel free to contact me.
