Dear Dr. Freitas:

This refers to your letter dated April 19, 2010, requesting an amendment to your NRC license 21-03194-01. We need more information to complete our review of your amendment request to change the Radiation Safety Officer and add additional authorizations for an authorized user. We will void your request at this time to allow you time to gather the information for your amendment request. We will void your request without prejudice to resubmission. Please submit the information as requested in the enclosed "Request for Additional Information". When you resubmit your request please state that the resubmission is additional information to **Voided Control 319026**. We will resume our review upon receipt of your response. Please note, that a "voided request" is an administrative procedure that puts your amendment request "on hold" until you reactive it by a written response. The "voided request" is regarded as "good" because it gives you time to prepare a quality response.

Please be advised, it is the licensee's responsibility to have a qualified Radiation Safety Officer who is responsible for the Radiation Safety Program at your facility.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in cursive script that reads "William P. Reichhold".
