SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

Dear Mr. VanNoord:

In letter dated March 30, 2010 you contacted the U.S. Nuclear Regulatory Commission and indicated that you wished to terminate your NRC radioactive material license. Based on our review of the final status survey documentation submitted in support of the request, the staff has determined that you have satisfactorily demonstrated that any residual byproduct material remaining in the facility is below the NRC's unrestricted use dose limits specified in 10 CFR Part 20, Subpart E "Radiological Criteria for License Termination."

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and the enclosure will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please contact me at (630) 829-9621.

Sincerely,

A handwritten signature in black ink, appearing to read "Katie Streit".
