U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

SUBJECT: REQUEST FOR EXTENSION TO RAI RESPONSE FOR THE MODEL NOS. AOS-025, AOS-050, AOS-100 PACKAGES, DOCKET NO. 71-9316 and TAC NO. L24353

Mr. Saverot:

Alpha-Omega Services, Inc. (AOS) hereby requests an extension to the deadline for our response to your Request For Additional Information (RAI) dated December 24, 2009.

In addition to responding to the 100 requests, items requiring substantial work were identified in the Thermal and Shielding areas during the video conference call of December 22, 2009. The engineering, documentation, and verification efforts required to revise the Safety Analysis Report (SAR) and resubmit as Revision D cannot be completed by January 15, 2010 as requested. Therefore we request the RAI response deadline be extended to October 4, 2010.

Thank you for your consideration.

If you have any questions concerning this request, please contact me at 526.804.0604.

Sincerely,

Bob A. Robnett
