SUBJECT: LIMITED SENIOR REACTOR OPERATOR LICENSING EXAMINATION
APPROVAL FOR LIMERICK GENERATING STATION, UNITS 1 AND 2, AND
PEACH BOTTOM ATOMIC POWER STATION, UNITS 2 AND 3

Dear Mr. Pacilio:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing examinations at Limerick and Peach Bottom Stations.

The NRC has completed its review of the operator license applications submitted in connection with this examination and separately provided a list of approved applicants to Mr. A. Wasong, Director of Training, Peach Bottom, and Mr. R. Dickinson, Director of Training, Limerick. Note that any examination waivers and application denials have been addressed in separate correspondence.

The NRC has approved the subject examinations and hereby authorizes you to administer the written examinations in accordance with NUREG-1021, "Operator Licensing Examinations Standards for Power Reactors," Revision 9, Supplement 1, on July 27, 2010. The NRC staff will administer the operating tests during the weeks of July 19, 2010 and July 26, 2010. This examination has undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines, and is appropriate for measuring the qualifications of licensed operator applicants at your facility. If you determine that this examination is not appropriate for licensing operators at your facility, do not administer the examination and contact me at (610) 337-5046.

Please contact your Chief Examiner, Joseph D'Antonio, at 610-337-5085, if you have any questions or identify any errors or changes in the license level or type of examination (partial or complete written examination and/or operating test) specified for each applicant.

Sincerely,

Samuel L. Hansell, Chief
Operations Branch
Division of Reactor Safety
