Subject: Possession limit for SIR-Spheres
(NOTE: This will be used as the Documents Title in ADAMS)

The amendment request was to increase the possession limit for Y-90 SIR-Spheres to 208 mCi/vial and 1000 mCi total. I left a voicemail message for Jim that, as indicated on the updated SDDR from Massachusetts submitted with this request, the maximum authorization per vial is 189 mCi. I informed Jim that we will plan to issue the amendment on Monday for 189 mCi/vial and increase the total possession limit as requested. If this is not acceptable, he may contact me to discuss.

Action Required: If not contacted by licensee by Monday, issue amendment limiting possession per vial to 189 mCi.
