## Luminant Contractors and Subcontractors

Prime Contractor for COL application – MNES (Mitsubishi Nuclear Energy Systems, Inc.)

Scope – All work necessary to prepare the COL application and to support the review of the application by NRO.

QA Program – MNES has its own QA program as required by the contract between MNES and Luminant

Safety Related Products – MNES does not prepare safety related design information but relies on its subcontractors. MNES has taken possession of core borings.

### MNES Prime Subcontractors

1. Enercon -
  - a. Scope - All work related to development of Environmental Report and FSAR Chapter 2, including site investigation and characterization. The following parts of the COLA are also included: Part 5 - Emergency Plan; Part 7 - Departures; Part 8 - Physical Security Plan; Part 9 - Withheld Information; Part 10 - ITAAC; Part 11 - Enclosures. This contract covers development and subsequent support during the NRC review.
  - b. QA Program – Enercon has its own QA program as required by the contract between MNES and Enercon.
  - c. Safety Related Products – calculations and specifications to support content of application
  
2. Mitsubishi Heavy Industries (MHI) –
  - a. Scope - All work required to develop FSAR with the exception of Chapter 2. This contract covers development and subsequent support during the NRC review.
  - b. QA Program - MHI has its own QA program per the agreements between MNES and MHI.
  - c. Safety Related Products - calculations and specifications to support content of application
