PURPOSE: A coordination meeting has been scheduled between management from the U.S. Nuclear Regulatory Commission (NRC) and American Society of Mechanical Engineers (ASME) to encourage and foster communication between NRC and ASME with respect to the ASME Boiler and Pressure Vessel Code (ASME Code). In addition, it is expected that the meeting will establish a common understanding between NRC and ASME of the needs of the NRC as a stakeholder in its use of the ASME Code. The agenda is provided in Enclosure 1.

The ASME is conducting technical meetings at the Hyatt Regency Washington on Capitol Hill from August 1 – 5, 2010. Thus, the coordination meeting on August 6 is not a technical meeting.
