Subject: RE: Letter, request for information

Michele,

As requested in the letter requesting information concerning the UX-30, EnergySolutions is providing notification that we will be providing responses to some of the ASN questions and information addressing the limitations for use imposed in the ASN Certificate by July 30. Responses to some of the questions will require additional time. In order to respond to these questions EnergySolutions is submitting a test plan to the French authorities for comments. The response to the remaining questions will be provided to the NRC after the tests have been performed. EnergySolutions is requesting the comments from the French authorities by September 30 after which a schedule for the drop test and completion of the response to the remaining ASN comments will be developed.

The partial response that EnergySolutions will submit to the NRC by July 30 will also provide a copy of the plan for performing a drop test that is being submitted to the French authorities.

Subject: Letter, request for information

Mark,
I have attached the ADAMS record copy of the letter requesting information for the Model No. UX-30 package. The original letter was sent in the mail on Friday. If you need additional information regarding this request, please let me know.

Thank you,
Michele Sampson
