Re: University of Missouri – Columbia Research Reactor License No. R-103, Docket No. 50-186
(NRC) Columbia, Boone County, Missouri

Dear Ms. Ullrich:

Thank you for submitting information about the above referenced project for our review pursuant to Section 106 of the National Historic Preservation Act (P.L. 89-665) and the Advisory Council on Historic Preservation's regulation 36 CFR Part 800, which require identification and evaluation of cultural resources.

We have reviewed the information provided concerning the above referenced project. We have determined that the University of Missouri – Columbia Research Reactor, 1513 Research park Drive, Columbia, is eligible for inclusion in the National Register of Historic Places. We have also determined that the proposed license renewal should have **no adverse effect** on the historic fabric of the Research Reactor, as this renewal does not involve any new construction, excavation, demolition or rehabilitation. We do encourage the NRC to consider recommending the development of a Historic Properties Management Plan for the Research Reactor.

Please be advised that, should project plans change, information documenting the revisions should be submitted to this office for further review and comment on possible effects to historic properties. In the event that cultural materials are encountered during project activities, all construction should be halted, and this office notified as soon as possible in order to determine the appropriate course of action.

If you have any questions, please write Judith Deel at State Historic Preservation Office, P.O. Box 176, Jefferson City, Missouri 65102 or call 573/751-7862. Please be sure to include the SHPO Log Number **(043-BO-10)** on all future correspondence or inquiries relating to this project.

Sincerely,

STATE HISTORIC PRESERVATION OFFICE

Mark A. Miles
Director and Deputy
State Historic Preservation Officer
