Subject: RE: Geo Cim, INc. License no 52-17776-02 - Request for Amendment

Luis:

Thanks for the response. Unfortunately, we can only list one individual as the RSO. The licensee may designate any one to assist the RSO in his/her absence, but the RSO named on the license remains responsible for implementing the radiation safety program. Please let me know who should be listed as the RSO so that we can finalize the amended license. Thanks

Sattar

Subject: RE: Geo Cim, INc. License no 52-17776-02 - Request for Amendment

Sattar:

In our license, in Amendment No. 6, Item 11, Luis O. Garcia is listed as the Radiation Safety Officer and Rolando Dávila is the designated Radiation Safety Officer, in my absence.

For many of the correspondences that we have generated, Mr. Dávila, our Laboratory Manager, has been the one writing and corresponding.

You may identify me as the Radiation Safety Officer for the new amendment; however, it should also include Rolando Dávila, as RSO, in my absence, as it is now.

Sincerely,

Luis O. García, PE

Luis:

Your license currently lists Ronaldo Devila as the radiation safety officer, but you have signed as the RSO. Please identify who is to be listed as the RSO on the license. Thanks

Sattar

Returning your inquiry, we currently have 15 CPN gauges.

Thank you for evaluating our request.

Luis:

Your license authorizes only CPN gauges and we can add one Seaman gauge that you requested. We need to know how many CPN gauges you currently have. Please call me (610) 337 5364, or respond to this e-mail by providing the number of your CPN gauges. Thanks

Subject: Geo Cim, INc. License no 52-17776-02 - Request for Amendment

Dear Mr. Lodhi:

As per our telephone conversation yesterday, we submit a request for an amendment to our license to add a Seaman Nuclear moisture density gauge that uses a

different source than the ones included in our present license. The letter attached presents our request.

Please let us know if additional information is needed.

Best regards,

Luis O. García, PE
