SUBJECT: GEO CIM, INC. , LICENSE AMENDMENT, CONTROL NO. 573108

Dear Mr. Garcia:

This refers to your license amendment request dated July 9, 2010. Enclosed with this letter is the amended license. Please note that the amended license is written in accordance with current NRC policy and includes significant changes. **Item 8 of the license specifies a maximum possession of each radioisotope that is authorized on the license. You must request and receive an amendment to your license prior to acquiring material in excess of these limits. Condition 11 is revised and requires you to designate authorized users in writing and maintain records of such users. Condition 17 of the previous amendment is deleted from the amended license because it is no longer applicable.**

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

L. Garcia
