

ENGELHARDT & ASSOCIATES, INC.
RADIATION CONSULTANTS

28 June, 2010

Mr. Bill Kinder
Plymouth Tube
572 W. State Road 14
Winamac IN 46996
BKinder@plymouth.com

Dear Bill:

As requested, I will accept the position as the RSO of Plymouth Tube Company on a temporary basis. I will be available to you via cell phone at 608-213-0113 any time you should need assistance. I will also be available to come to the site, or will have Josh Walkowicz available to come to the site in the event of an emergency. Since the gauge is completely self contained and interlocked such that any catastrophic failure or event will result in the shutters closing. Remember, these shutters are a rotating tungsten rod so when they are closed there is negligible radiation outside of the gauge frame.

Therefore, by this transmittal, I am accepting the position of RSO until such time as a new person is trained and has filled the job.

If you have questions, please contact me.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Susan Engelhardt', written in dark ink.
