Affidavit of Gregory T. Gibson
(Page 1 of 2)

Gregory T. Gibson, being duly sworn, hereby deposes and states as follows:

1. My name is Gregory T. Gibson. I am the Vice President, Regulatory Affairs for UniStar Nuclear Energy, LLC (UniStar).
2. I have been authorized by UniStar to execute this affidavit in support of UniStar's request to withhold proprietary information identified in UniStar's letter to the NRC UN#10-186, "UniStar Nuclear Energy, Docket No. 52-016, "Calvert Cliffs Nuclear Power Plant Unit 3, RAI No. 220, General and Financial Information" hereafter referred to as the Proprietary Information, from public disclosure in accordance with the Nuclear Regulatory Commission (NRC) regulations appearing at 10 CFR 2.390(a)(4).
3. Proprietary Information is being submitted as proprietary and confidential information as part of Enclosures 1 and 2 to UniStar's letter UN #10-186 from Greg Gibson to the NRC Document Control Desk. This information is considered proprietary in its entirety.
4. The Proprietary Information includes detailed financial information regarding sources of financing, and costs and taxes associated with the construction and operation of the proposed U.S. EPR nuclear power plant at the Calvert Cliffs Nuclear Power Plant, Unit 3 Site (i.e. CCNPP Unit 3).
5. The Proprietary Information was prepared with the explicit understanding that the information itself would be treated as proprietary and confidential. The information should therefore be withheld from public disclosure. Indeed, UniStar has refrained from publicly disclosing this information. To the best of my knowledge and belief, the Proprietary Information has not otherwise been knowingly made available in any public source.
6. If the Proprietary Information was publicly disclosed, UniStar and Constellation Energy would suffer irreparable and incalculable harm. Specifically, UniStar's competitors would gain valuable insight into otherwise unavailable business strategies, plans, and financial details. By knowing the details included in the Proprietary Information, UniStar's competitors would obtain an unfair commercial advantage that would significantly affect UniStar's ability to compete. In addition, the success of the UniStar's future plans is governed in large part by the cost and tax information, and thus to publicly disclose this information as reflected in the Proprietary Information would result in substantial harm to the competitive position of UniStar.
7. Financial information by its nature is treated as confidential. The specific financial details in the Proprietary Information have not been publicly released for the reasons set forth above. Accordingly, withholding the Proprietary Information from disclosure will not adversely affect the public.

Affidavit of Gregory T. Gibson
(Page 2 of 2)

8. The Proprietary Information is being submitted to the NRC in confidence. This Proprietary Information is of a sort customarily held in confidence by UniStar, and in fact has been held in confidence and not otherwise previously publicly released.

Further Affiant sayeth not.
