Subject: License Amendment Request 15 (License No. 45-25551-01), Docket No. 030-35668, Control  
No. ~~44342~~ *573138 RW*

This letter requests amending the subject license to:

1. Revise current license Items 6-9, (DTRA Item 5) as follows: Add new radioactive sources as specified in the Sealed Sources and Devices Registry and modify current source 6.C. as specified. (See Attachment A).
2. Revise current Condition 10.J to read: "Licensed material may be used or stored at temporary job sites of the licensee anywhere the U.S. Nuclear Regulatory Commission maintains jurisdiction for regulating the use of licensed material." This statement was previously Condition 10B of Amendment No. 11, Docket No. 030-35668, Control No. 141272. DTRA has no record of an amendment request to restrict this condition to the United States. DTRA continues to perform a global mission.
3. Revise Condition 11 to read: "The Radiation Safety Officer for this license is Constance Sims Rosser, and in her absence, Michael W. Hinton."
4. Revise the radiation safety program audit program policy (DTRA Application Item 10.1) to update our current license commitments. (See Attachment B).

If there are any questions or additional information needed, please contact Ms. Constance S. Rosser at (703) 767-0295.

Sincerely,

*Sherry J. Davis*

**Proposed Revised DTRA APPLICATION ITEM 10.1, RADIATION SAFETY PROGRAM, AUDIT PROGRAM:**

In order to ensure that adequate oversight of the Radiation Safety Program is provided, an independent outside party will conduct a biannual audit of the DTRA Headquarters. The purpose of the audit is to provide an unbiased review of the Radiation Safety Program and practices with respect to the requirements of the applicable regulations, license requirements and accepted safe practices. The audit will also serve to ensure that DTRA's senior management is aware of the NRC regulations, the provisions of the license and the compliance status of DTRA's licensed program. Results of the audit will be reported to DTRA's Chief Environment, Safety and Occupational Health Office and DTRA's Radiation Safety Officer.

An internal audit will be conducted periodically by the DTRA Radiation Safety Officer or designee, to determine user compliance with NRC regulations, the terms and conditions of the NRC license and good health physics practices. Results of the audit will be reported to DTRA's Chief, Environment, Safety and Occupational Health Office.

This is to acknowledge the receipt of your letter/application dated 7/15/2010 <sup>received</sup> and to inform you that the initial processing which includes an administrative review has been performed.

Amendment (45-25551-01) There were no administrative omissions. Your application was assigned to a technical reviewer. Please note that the technical review may identify additional omissions or require additional information.
