Tomorrow at the Bucket Call I would like to discuss two Radiological Emergency Plan letters: 1) TVA's letter dated April 27, 2010 and 2) NRC letter dated June 15, 2010. I have attached a copy of portions of our letter and all of the NRC letter for your use.

In RAI response 2 (Page E1-2 and Attachment 1 pages), the TVA letter provided a summary of the changes made to the WBN and Corporate REPs since Revision 21. The last large paragraph of the NRC letter at the bottom of the second page requests TVA to submit all revisions to the WBN and corporate REP. One of my people interprets this as possibly meaning "send you all the changes to the REP since you last approved it back in 1995". I thought that was fulfilled by sending you the summary of changes in our April 27 letter. I think what this NRC letter really means is that after we send in the upcoming revision to the REP (scheduled for August 6, 2010), that you need to see any subsequent changes. In other words you cautioned us to make any other changes unless absolutely required and to make sure we tell you.

Is this your understanding of the NRC letter?
