UNITED STATES DISTRICT COURT OF APPEALS
DISTRICT OF COLUMBIA CIRCUIT
333 Constitution Avenue, NW, Room 5523
Washington, DC 20001-2866
Phone: 202-216-7290 Facsimile: 202-219-8530

William (Bill) D. Peterson, Engineer !
for 300-Year SNF Disposal Solution & ! MOTION
3-year Fuel and Economy Recovery Plan, ! to add defendants
Plaintiff !
vs. ! Case No. 10-1007
!
United States of America ! Rogers, Garland & Brown
Nuclear Regulatory Commission, et al.* ! Circuit Judges
Defendants !

- * Spent Nuclear Fuel plan Defendant – Appellee parties are: NRC - Nuclear Regulatory Commission, Atomic Safety and Licensing Board DOE - Department of Energy, EPA - Environmental Protection Agency, NAS - National Academies of Science, and NEI - Nuclear Energy Institute.
- * Fuel and Economic recovery plan Defendant – Appellee parties are: DOC - Department of Commerce, DOL - Department of Labor, DOT - Department of the Treasury, FTC -Federal Trade Commission, and the TPCC - Trade Promotion Coordinating Committee
- * Other Federal Administrative parties of interest are: Former Nuclear Waste Negotiator, Idaho Congressman Richard Stallings, and President Barack Obama.

MOTION
to add defendants

On January 4th 2010, Plaintiff Peterson appealed a December 30th 2009 Order of the Nuclear Regulatory Commission rejecting Peterson's 3-year plan for energy independence and American economic start for independence. Peterson's issues were

then being seen principally by NRC, but the energy issues involve EPA, DOE, NEI, and NAS, and the economic issues involve them and DOC, DOL, DOT, FTC, TOCC. They are also interests of former Nuclear Waste Negotiator and former Idaho Congressman Richard Stallings, and our President Barack Obama.

In Peterson's pleadings since his initial notice of appeal Peterson has listed the twelve defendants above as parties in this matter. In his January 4th NOTICE OF APPEAL pleading Peterson did request Further Review and Clarification of the Court's 9, 2004 Order in Court of Appeals D.C. Circuit Case No. 01-1258, and listed PETERSON'S motion for a THREE (3) YEAR ECONOMY RECOVERY PLAN, and his PLAN FOR SNF DISPOSAL and his PLAN FOR FUEL INDEPENDENCE, which plans were also for CO₂ reduction for slowing Global Climate Change, all items for which Peterson was seeking for the Court's review.

These subjects all interrelate with Peterson's work of 300-year disposal of spent nuclear fuel (SNF). For the U.S. to become energy independent Peterson proposes 500 new nuclear power plants (50 in three years) for power to manufacture hydrogen to replace use of imported oil. Peterson is saying the U.S. deficit is a consequence of our nation's imbalance of trade, where the U.S. import of foreign oil is America's single largest import so its single largest imbalance of trade deficit import item that must be discontinued as soon as possible.

Peterson will ask the Court to reaffirm its July 9th, 2004, order in Case No. 01-1258 and will ask the Court to find unconstitutional any deficit borrowing from any entity not a part of the United States. Peterson will move that this court can fix America's need for

energy and need for economic stabilization by requiring that America must produce for itself as much as it consumes, from Deficit Recovery requirements from a 20+ year history of Peterson's studies and developments in macroeconomics and dealings with used nuclear fuel.

Copies of twelve summons previously provided to be served by orders of the court, accompany and support this motion.

Respectfully submitted electronically, this July 15th day of , 2010.

William (Bill) D. Peterson

Ref: Thank you Mary Ann Lister, Case Administrator. Tel 202-216-7259
