JFC Engineers and Surveyors
ATTN: Jason G. Brown
Radiation Safety Officer
1515 Ninth Street, Suite A
Rock Springs, Wyoming 82901

SUBJECT: CORRECTED COPY OF LICENSE

Please find the attached corrected copy of Amendment Number 03 to License Number 49-27798-01. The NRC has established that all materials licenses should have maximum possession limits listed on materials licenses as recommended by the Materials Program Working Group (MPWG) of the Office of Federal and State Materials and Environmental Management Programs (FSME). Previously, your license had an "open ended" possession limit described in Item 8 of your materials license. **The attached corrected copy contains a "closed ended" possession limit, which specifies the maximum amount of activity per source and total activity allowed for each radioisotope on the license.** If you have any questions, or if the corrected copy of your license does not accurately document the amount of material that you possess, please call or email me at (817) 276-6547 or casey.alldredge@nrc.gov to amend the license, as appropriate.

In accordance with 10 CRR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. Thank you for your cooperation.

Sincerely,

/RA/

Casey Alldredge, Health Physicist
Nuclear Materials Safety Branch B

Docket: 030-36845
License: 49-27798-01

Enclosure: As stated
