Subject: 7/13/2010 - Summary of Phone Call with Westinghouse to Gain Clarification on Draft RAI Response RAI-DCP-CN59-SBP-01

MEMORANDUM TO: File (AP1000 DCD)

From: Michael Wentzel, Project Manager
AP1000Projects Branch (NWE1)
Division of New reactor Licensing
Office of New Reactors

Subject: Summary of July 13, 2010 phone call with Westinghouse to get clarification on draft RAI response RAI-DCP-CN59-SBP-01

Purpose: To get clarification on draft RAI response RAI-DCP-CN59-SBP-01

The NRC attendees were:

- Ed Forrest, Bob Radlinski, Danny Chien, and Michael Wentzel

The applicant participants included:

- Brad Carpenter, Charles Kling, Mark DeMaglio, and Mike Melton

The staff attempted to gain clarification on the reason behind the difference in the handling of the ancillary diesel generator supply and exhaust ventilation in the RAI response. Specifically, the staff wanted to know why there were several modifications made to the diesel exhaust ventilation and none to the supply. The applicant was unable to answer the question, due to the fact that the correct Westinghouse personnel were not present at the meeting. The applicant and staff agreed to reschedule the phone call based on the availability of the necessary personnel.
