**JUL 1 8 2010**

Joseph Eades  
Radiation Safety Officer  
Monsanto Company  
800 North Lindbergh Blvd.  
Mail Zone R3B  
St. Louis, MO 63167

Dear Mr. Eades:

Enclosed is Amendment No. 01 to your NRC Material License No. 24-32488-01 in accordance with your request dated June 15, 2010. Please note that the changes made to your license are printed in **bold** font.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please be advised that since the 700 Chesterfield Parkway facility is already listed on your NRC license as an authorized place of use, you may commission radioactive use laboratories (former Pfizer laboratories and facilities) under the terms and conditions of your NRC license without submitting an amendment to your NRC license after Pfizer's NRC license is terminated. If your understanding is different from the above, please contact me immediately at 623-214-5213.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system

(ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

A handwritten signature in cursive script, appearing to read "James R. Mullauer".

James R. Mullauer, M.H.S.  
Health Physicist  
Materials Licensing Branch
