

UNITED STATES NUCLEAR REGULATORY COMMISSION REGION III 2443 WARRENVILLE ROAD, SUITE 210 LISLE, IL 60532-4352

July 21, 2010

Mr. Christopher J. Schwarz Vice President, Operations Entergy Nuclear Operations, Inc. Palisades Nuclear Plant 27780 Blue Star Memorial Highway Covert, MI 49043-9530

SUBJECT: PALISADES NUCLEAR PLANT REQUEST FOR INFORMATION FOR AN NRC POST-APPROVAL SITE INSPECTION FOR LICENSE RENEWAL

Dear Mr. Schwarz:

On October 4, 2010, the NRC will begin a Post-Approval Site Inspection for License Renewal. A team of two inspectors will perform this 2-week inspection. This inspection will be performed in accordance with NRC Inspection Procedure (IP) 71003. This inspection will focus on outage related activities to verify that license conditions added as part of your renewed license and a sample of license renewal commitments have been implemented.

In order to minimize the inspection impact on the site and to ensure a productive inspection for both parties, we have enclosed a request for information needed for the inspection. It is important that all of these documents are up to date and complete in order to minimize the number of additional documents requested during the preparation and/or the on-site portions of the inspection. Insofar as possible, this information should be provided electronically to the lead inspector. The information request has been divided into two groups:

- The first group lists information necessary for our initial inspection scoping and in-office preparation activities. During the in-office preparation activities, the team will identify as much as possible the information and activities to be reviewed during the inspection. This information should be provided to the lead inspector by September 13, 2010.
- The second group includes the additional information required for the team to review the selected activities. This information should be available to the team onsite October 4, 2010. It is also requested that corrective action documents and/or questions developed during the inspection be provided to the lead inspector as the documents are generated.

The lead inspector for this inspection is Benny Jose. We understand that our licensing contact for this inspection is Mr. Jeffrey Erickson of your organization. If there are any questions about the inspection or the material requested in the enclosure, please contact the lead inspector at (630) 829-9756 or via e-mail at Benny.Jose@nrc.gov.

C. Schwarz

This letter does not contain new or amended information collection requirements subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). Existing information collection requirements were approved by the Office of Management and Budget, Control Number 3150-0011.

The NRC may not conduct or sponsor, and a person is not required to respond to, a request for information or an information collection requirement unless the requesting document displays a currently valid Office of Management and Budget control number.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS), accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html (the Public Electronic Reading Room).

Sincerely,

/RA/

Ann Marie Stone, Chief Engineering Branch 2 Division of Reactor Safety

INFORMATION REQUEST FOR POST-APPROVAL SITE INSPECTION FOR LICENSE RENEWAL OUTAGE PORTION

Inspection Report:	05000255/2010-010(DRS)
Inspection Dates:	October 4, 2010 – October 22, 2010
Inspection Procedure:	IP 71003 "Post-Approval Site Inspection for License Renewal"
Lead Inspector:	Benny Jose, Lead Inspector (630) 829-9756 Benny.Jose@nrc.gov

I. Information Requested Prior to the On-site Inspection Week

The following information is requested by September 13, 2010, or sooner, to facilitate inspection preparation. If you have any questions regarding this information, please call the team leader as soon as possible. (Please provide the information electronically in "pdf" files, Excel, or other searchable formats, preferably on some portable electronic media (e.g., CDROM, DVD, flash drive, etc.). The portable electronic media should contain descriptive names, and be indexed and hyperlinked to facilitate ease of use. Information in "lists" should contain enough information to be easily understood by someone who has knowledge of light water reactor technology).

- 1. Provide a list of your license renewal commitments with an approximate completion status of each.
- 2. Provide a list of your Aging Management Programs (AMPs), copies of the program basis documents for each, and a listing of the action tracking items for each.
- 3. For AMPS that are one-time inspection programs, provide a list of completed work order numbers for inspections that have been completed. This may be incorporated with the previous item and should include identification of the inspected component.
- 4. Provide a list of the one-time inspections credited for license renewal that will be completed during your outage. This list should include at least the system, component, work order number, and type of inspection.
- 5. Provide a listing of planned inspections which will be conducted during the outage, <u>credited for license renewal</u>, that provide observations of areas that are generally inaccessible at power, e.g., containment liner and containment coating inspections. Include work order numbers where applicable.

INFORMATION REQUEST FOR POST-APPROVAL SITE INSPECTION FOR LICENSE RENEWAL OUTAGE PORTION

- 6. Provide an outage schedule, sufficiently detailed as to list the work orders noted in Items 4 and 5.
- 7. Provide current management and license renewal organizational charts.
- 8. Provide electronic copies of Updated Final Safety Analysis Report, Technical Specifications, Technical Specifications Bases, and Technical Requirements Manual.
- 9. Provide copies of any internal/external self-assessments and associated corrective action documents generated in preparation for the inspection.

II. Information requested to be available when the inspectors arrive on-site on October 4, 2010.

- 1. Copies of the work orders requested during the preparation week. This will include work orders of inspections to be observed and completed work orders to be reviewed by the team.
- 2. Contact information for the Outage Control Center to facilitate inspector observation of the selected work orders.
- 3. Documentation demonstrating completion of license renewal commitments those are complete as of the inspection date. For example, this may be in the form of a binder for each commitment which includes the implementing documentation and references.

III. Information Requested to be provided throughout the inspection

- 1. Copies of any corrective action documents generated as a result of the team's questions or queries during this inspection.
- 2. Copies of the list of questions submitted by the team members and the status/resolution of the information requested (provide daily during the inspection to each team member).

If you have questions regarding the information requested, please contact the lead inspector.

C. Schwarz

This letter does not contain new or amended information collection requirements subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). Existing information collection requirements were approved by the Office of Management and Budget, Control Number 3150-0011.

The NRC may not conduct or sponsor, and a person is not required to respond to, a request for information or an information collection requirement unless the requesting document displays a currently valid Office of Management and Budget control number.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS), accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html (the Public Electronic Reading Room).

Sincerely,

/RA/
