Public comments requested as to proposed no significant hazards consideration (NSHC): Yes.

May 6, 2010 (75 FR 24993). The supplements dated May 5, 10, 13, 20, and 24, 2010, provided additional information that clarified the application, did not expand the scope of the application

as originally noticed, and did not change the NRC staff's original proposed no significant hazards consideration determination. The May 6, 2010 notice provided an opportunity to submit comments on the Commission's proposed NSHC determination. No comments have been received. The May 6, 2010 notice also provided an opportunity to request a hearing by July 6, 2010, but indicated that if the Commission makes a final NSHC determination, any such hearing would take place after issuance of the amendment.

The Commission's related evaluation of the requested amendment, state consultation, and final NSHC determination are contained in a safety evaluation dated June 25, 2010. The NRC staff prepared an environmental assessment (75 FR 36446) and determined that the requested amendment will not have a significant effect on the quality of the human environment.
