Farideh,

Per our discussion, the licensee's testing procedure is attached. The SIT will be reviewing the test results to address Charter Item #3, "Review structural integrity testing data of the containment."

Request: A general review of this procedure by our NDE Branch.
Goal: Identify whether NDE Branch has any significant concerns with the methodology or appropriateness of the procedure.
Time: Request a one week turn-around to support SIT schedule.

Thanks,
Mark
