 2. W3F1-2010-0049, Response to Request for Additional Information Associated with Technical Specification 3/4.9.7, Crane Travel – Fuel Handling Building, June 8, 2010 [ADAMS Accession Number ML101620130].

Dear Sir or Madam:

In letter W3F1-2009-0046 [Reference 1], Entergy Operations, Inc. (Entergy) proposed a change to Waterford Steam Electric Station Unit 3 (Waterford 3) Technical Specifications (TS) 3/4.9.7 associated with the Fuel Handling Building (FHB) crane travel.

During the submittal review process, the Nuclear Regulatory Commission (NRC) determined that a Request for Additional Information (RAI) was required to complete the review and Waterford 3 responded to the request in letter W3F1-2010-0049 [Reference 2].

Letter W3F1-2009-0046 [Reference 1] identified that Waterford 3 will upgrade the existing Fuel Handling Building (FHB) cask crane main hoist to meet the single-failure-proof criteria of NUREG 0554 and NUREG 0612 as is applicable for the modification of

A001
NR

the existing non single-failure-proof crane. This letter is transmitting this information as a new regulatory commitment and is contained in the Attachment.

If you have any questions or require additional information, please contact William Steelman at 504-739-6685.

I declare under penalty of perjury that the foregoing is true and correct. Executed on July 22, 2010.

Sincerely,

A handwritten signature in black ink, appearing to be "J. A. K. W. J. S.", written in a cursive style.

JAK/WJS
