Yes that is what I meant. Our management asked us to keep it simple ... The example I was given was something like :
Progress Energy to discuss Crystal River containment issue.

We do not have "repair" in the purpose of the meeting. It says that "[the licensee] presents its plans for resolving this issue." However, the word "repair" is in the agenda that was sent to me by Brian McCabe. Do you want to change any of this?

Can we leave off the second part of the purpose about repair? We want to keep purpose as simple and open as possible.
