Subject: Info

Hi Lou,

Hopefully this will go as internet service is iffy and slow.

BS - Civil Engineering, University of Illinois MS, PhD - Theoretical and Applied Mechanics, University of Illinois

5 years with Corps of Engineers in Champaign, Illinois working on concretes and specialty concretes for infrastructure applications.

35 years at Oak Ridge National Laboratory primarily applying concrete technology to nuclear applications (high-temperature gas-cooled and LWR applications) in several areas: material properties and behavior (concrete, steel reinforcement, tendons, and liners), inspection methods, condition assessment, service life, and repair.
