Docket No. 52-001

ABWR STP Aircraft Impact Assessment (AIA) Amendment Revision-0

Reference: Letter, Scott Head to Document Control Desk, "ABWR STP Aircraft Impact Assessment (AIA) Amendment Revision-0," dated July 12, 2010, U7-C-STP-NRC-100168 (ML102000496 and ML102000498).

STP Nuclear Operating Company (STPNOC) resubmits the Enclosures for "ABWR STP AIA Amendment Revision 0" to the application to amend the design certification rule for the U.S. Advanced Boiling Water Reactor (ABWR), provided as enclosures (Security Sensitive and non-sensitive) to this letter. These new Enclosures correct two files provided in the Reference to correct minor errors in Figure 6.2-38 and Figure 5-1-3 that did not fully incorporate the response to a Request for Additional Information (RAI).

The files replaced are "STP_AIA_T2_5_2.pdf" and "STP_AIA_T2_6_2.pdf." These files are replaced in both Enclosures. No other changes to the previous submittal were made.

This letter contains attachments and enclosures providing the following:

Attachment - "Summary of Preflight Evaluations," checks performed on the PDF files for each Part included with this submittal (Enclosures 1 and 2).

Enclosures (2) - Two DVDs containing Revision 0 to the ABWR STP Aircraft Impact Assessment (AIA) Amendment in PDF format, prepared in compliance with "Guidance for Electronic Submissions to the NRC." Each DVD contains a packing slip that explains the contents.

Designated as original
7/26/10

DOSO
KRO

Enclosure 1 (DVD) provides a complete proprietary version of the STP ABWR AIA Amendment Revision 0 and includes Security Sensitive information.

Enclosure 2 (DVD) provides a complete, non-proprietary and non-security-sensitive version of the STP ABWR AIA Amendment Revision 0 suitable for public disclosure.

Enclosure 1 to this letter contains Security Sensitive Information and should be withheld from public disclosure under 10 CFR 2.390. Upon separation from the enclosure, this letter is decontrolled.

There are no commitments in this letter.

If you have any questions, please contact me at (361) 972-7136, or Bill Mookhoek at (361) 972-7274.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on 7/22/10

SUMMARY OF PREFLIGHT EVALUATIONS

All submittal PDF files were prepared with Adobe Acrobat Version 8 using the current Job Options file provided by the NRC on its web site. All files passed the preflight check (using the latest NRC preflight profile provided on its web site) except a few files that contained scanned pages that were processed by the Acrobat Optical Character Recognition (OCR) process. In these cases, an error is generated for lack of embedded fonts in the files. This is due to the known and documented inability of Acrobat to embed the fonts in a scanned and OCR processed file.
