Geoff Warren
Division of Nuclear Material Safety
ATTN: Reciprocity Request
US, NRC, Region III
2443 Warrenville Road, Suite 210
Lisle, IL 60532-4352

Mr. Warren,

Per our conversation, this letter serves to explain the events which led up to service days prior to reciprocity approval at our facility located at:

Shaheen Parvez, M.D.
1640 45th St.
Munster, IN 46321

Midwest Imaging Consultants (License # II-02186-1) was granted reciprocity approval for the 2010 calendar year for our account located at:

Marcotte Medical Group
15900 W 101st St.
Dyer, In 46311

When we contracted with Dr. Parvez as a temporary job site for services in March of 2010, I assumed that since we already had reciprocity license approval, no other actions or notification to the NRC were necessary.

In years past, when using a reciprocity license the NRC didn't require notification for additional temporary job sites as long as the amount of service days didn't exceed 180 per year. To date, we have serviced Dr. Parvez the following days:

March 4
April 1
May 6
June 3
July 15

My Health Physics Consultant discovered the over sight just this week and I immediately submitted the amended reciprocity request to you. I would hope that you will take into consideration that I have been in good standing with both the NRC and the state of Illinois for many years. In addition, I submitted the additional temporary job site information to you immediately upon discovery.

I hope the information submitted is satisfactory. Should you have any questions, please do not hesitate to contact me on my cell phone (815) 757-5056

Sincerely,

A handwritten signature in cursive script that reads "James Doran RSO". The signature is written in dark ink and is positioned above the typed name.

Jim Doran,
President/RSO
