Appreciate you calling. I have attached the latest list of questions, of which 8 open questions are assigned to you. Don't know if you need to go the site to close them. Let's talk.

Lou

I am technically still on Family Leave and not working today. I will give you a quick ring though.

Lou,

Just finished talking with George about Crystal River schedule and SIT schedules. He indicated that the CR schedules are continuing to slip and that he thought you indicated no SIT team members will be on-site next week due to lack of activities. However, the first week of Feb. looks to have some activities with the detensioning.

If this is correct, then I will plan to NOT go to Crystal River next week, but make plans to go Feb. 1 - 5?
Correct?

Thanks,
Anthony D. Masters, PE

Good morning Lou! I hope you got to enjoy your holiday weekend and not spend all the time at Crystal River.

Should I plan and submit my travel authorization for being at CR3 next week?

Thanks,

How is Mom and Son doing?

Stand by. I should be organizing the questions by Thursday.

As for when we need to be on site to witness construction activities, currently there is no firm date for the de-tensioning to begin. The only info I have is that it is estimated for the end of January/beginning of February. I will keep you informed with updated information as I get it.

Lou,

Hope all is still going well and the new year is off to a great start! I never heard back from you last week regarding some assistance I can give to reviewing some of the newer questions and responses. Did you get this resolved?

Do I still need to plan to go to Crystal River the week of Jan. 25th?

Thanks,
