Reference: 1. Letter from Ronald B. Clary to Document Control Desk,
Submittal of Revision 2 to Part 3 (Environmental Report)
of the Combined License Application for the V. C.
Summer Nuclear Station Units 2 and 3, dated July 2,
2010.

By letter dated March 27, 2008, South Carolina Electric & Gas Company (SCE&G) submitted a combined license application (COLA) for V. C. Summer Nuclear Station (VCSNS) Units 2 and 3, to be located at the existing VCSNS site in Fairfield County, South Carolina. Subsequently the Environmental Report (ER), Part 3 of the application, was revised and submitted to the NRC (reference 1).

The enclosures to this letter provide the Santee Cooper transmission line sitting study revision 1 and associated GIS data. Please note that the GIS data is provided to support the NRC's review of the VCSNS Environmental Report (ER), but does not comply with the requirements for electronic submissions as stated in NRC Guidance Document, "Guidance for Electronic Submissions to the NRC", dated October 29, 2008. The NRC staff requested that GIS and associated metadata be provided in native format. Formatting the DVD to comply with the guidance on electronic submissions would not serve the request to provide this information in its native format.
