SUBJECT: PUBLIC MEETING SUMMARY-LICENSEE PERFORMANCE REVIEW FOR AREVA
NP – LYNCHBURG, DOCKET NUMBER 70-1201

Dear Mr. Grandemange:

This letter refers to our meeting at the Areva North American Headquarters in Lynchburg, Virginia, on July 26, 2010, during which we discussed the NRC's evaluation of your performance in the five major areas of safety operations, radiological controls, facility support, licensing activities, and safeguards. The meeting afforded the members of the public the opportunity to ask questions and provide feedback to the NRC regarding our inspection program for the Areva NP Lynchburg site. The meeting at your headquarters also afforded you the opportunity to provide feedback to the NRC regarding your self assessment and perception of the NRC performance review. The meeting was beneficial and provided the NRC with an acceptable level of confidence of your plans to improve your management oversight of safety performance.

The list of meeting attendees is Enclosure 1, and copies of the NRC and Areva NP Lynchburg presentations are contained in Enclosures 2 and 3.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS).
