MEMORANDUM TO: Ryan Whited, Chief
Environmental Projects Branch 2
Division of Site and Environmental Reviews
Office of New Reactors

FROM: Tomeka Terry, Project Manager **/RA/**
Environmental Projects Branch 2
Division of Site and Environmental Reviews
Office of New Reactors

SUBJECT: SUMMARY OF PUBLIC MEETINGS TO SUPPORT THE REVIEW
OF THE TURKEY POINT, UNITS 6 AND 7, COMBINED LICENSE
APPLICATION

The U.S. Nuclear Regulatory Commission (NRC) staff, along with the U.S. Army Corps of Engineers (USACE), Jacksonville District, conducted an environmental scoping meeting related to the review of the Turkey Point, Units 6 and 7 combined license (COL) application submitted by Florida Power & Light Company (FPL). The NRC staff conducted two public meetings on Thursday, July 15, 2010, at the Homestead YMCA, in Homestead, Florida. Approximately 150 to 200 people attended each meeting, including representatives of the NRC staff and its contractors, USACE, FPL, State and local governments, the nuclear industry, and members of the public. Public comments and questions were mainly focused on socioeconomics, waste disposal, transmission line corridor, water quality, and water use.

The purpose of the meetings was to provide the public with an opportunity to participate in the environmental scoping process by providing comments on any issues the public thought the NRC staff should consider while preparing an environmental impact statement (EIS) for the Turkey Point, Units 6 and 7 COL application. During the meeting the NRC staff and USACE provided a description of the National Environmental Policy Act of 1969 review process, the USACE's regulatory role and permitting decisions, and the schedule for submitting scoping comments.

In addition, the NRC staff hosted an informal "open house" for one hour prior to each meeting. The NRC staff used displays and provided brochures to answer questions about the proposed COL application.

Also, NRC staff hosted a Government-to-Government meeting with local officials on July 14, 2010. This meeting provided the local officials an opportunity to speak with the NRC staff regarding the NRC's process for preparing an EIS for the Turkey Point, Units 6 and 7 COL application.
