**Subject:** RE: CR3 November 20th Public Meeting

Hi Farideh,

Please include me on concurrence.

Out thoughts on the meeting:

- We would prefer to keep the meeting at a high level and keep the scope limited to Progress providing a informational update to NRC. NRC would primarily be listening.
- The Special Inspection will still be in progress, and we may have a separate public meeting when complete. With this in mind, we prefer to keep any Special Inspection discussion separate from the Nov 20 meeting.

Thanks,  
Mark

Please see the following e-mail regarding the November 20, 2009 meeting related to the Crystal River containment delamination issue. Please let me know if you would recommend to add a subject to the meeting topics.

For clarification, DORL is coordinating all the activities for this meeting and I will be preparing the meeting notice.

Regards,

Farideh

**Subject:** CR3 November 20th Public Meeting

The purpose of the meeting is for Progress Energy to discuss the following with the NRC staff:

1. Information pertaining to identification of the CR3 containment delamination

6-17

2. The root cause investigation of the containment delamination
3. The containment condition assessment (extent of condition review)
4. The design basis analysis associated with containment
5. Plans pertaining to containment repair and post repair testing

Progress Energy participants will include:

Jim Scarola, Senior VP and CNO  
Jon Franke, CR3 Vice President  
Bob Duncan, VP of Nuclear Operations  
Joe Donahue, VP of Nuclear Oversight  
Garry Miller, Containment Project Manager

Given that the meeting will be in the Commissioner hearing room, we will need to use the overhead projector and will be using a Powerpoint presentation.

We will not need parking at the NRC building.

Brian McCabe will be your point of contact for this meeting and can be reached at the numbers listed below.
