SUPPLEMENT TO REQUEST FOR APPROVAL OF THE CYBER SECURITY PLAN

On March 27, 2009, the Nuclear Regulatory Commission (NRC) published the final rule, Power Reactor Security Requirements, in the Federal Register. The new 10 CFR 73.54 requires licensees of operating nuclear power plants to submit a Cyber Security Plan for Commission review and approval. This section also requires that each submittal include a proposed Implementation Schedule. Dominion Energy Kewaunee, Inc. (DEK), Dominion Nuclear Connecticut, Inc. (DNC), and Virginia Electric and Power Company (Dominion) submitted requests for amendments to the Operating Licenses (OLs) for Kewaunee, Millstone, North Anna, and Surry Power Stations as well as an Implementation Schedule on November 20, 2009 (Serial No. 09-640).

On May 21, 2010 the NRC responded to DEK, DNC, and Dominion's November 20, 2009 submittal. The NRC stated that the staff had significant generic concerns with the version of the NEI guidance that was used in preparing that submittal. To resolve the NRC staff's concerns, DEK, DNC, and Dominion were requested to review the list of generic issues that was provided to the industry cyber security writing team and forwarded to licensees via a March 9, 2010 email, and provide a revised submittal. As an alternative to addressing the individual issues, the NRC stated that a revised Cyber Security Plan could be submitted consistent with Regulatory Guide (RG) 5.71 or NEI 08-09, Revision 6. DEK, DNC, and Dominion elected to supplement their November 20, 2009 submittal by revising the Cyber Security Plan to be consistent with NEI 08-09, Revision 6. A revised Cyber Security Submittal was provided in a July 12, 2010 letter (Serial No. 10-349). Enclosure 3 of the July 12, 2010 submittal provided the Implementation Schedule for the Cyber Security Plan and had not been revised from the original submittal of November 20, 2009.

Based on a July 29, 2010 telephone call with Mr. Karl Feintuch and Mr. Perry Pederson of the NRC staff, justification of each item on the Implementation Schedule is being provided. Attached is a revised Implementation Schedule (Enclosure 3) which contains a justification for each item. The attached Enclosure 3 supersedes the Enclosure 3 provided in the
