Subject: draft EA for Christensen Ranch/Irigaray project

Jane:

Tom Bills, the Environmental Coordinator in our office (Buffalo FO in WY, BLM), told me last week, that a draft EA is being prepared by the NRC for the Christensen Ranch/Irigaray project out in our neck of the woods.

As this is the first I'd heard of a renewing of the project activities (the project has been in stand-by status

for some time), I would very much appreciate being able to view and comment on the draft EA. If my timing is off, and it's too late to provide comments toward this document, then I would still appreciate receiving a copy of the draft EA. I would also appreciate being added to the loop as recipient of other documents related to this project.

I will try to get in touch with the company (Cogema, from the last information they sent us back in August 2009) to get a better idea of what their plans are, considering the project area incorporates some BLM surface lands (a small portion, but some nonetheless, thus requiring BLM's involvement in the project).

Thank you.
