Subject: Cultural Resources for Glades and Martin
Date: Wednesday, July 14, 2010 4:12:00 PM

Dear Rick,

I have the CD ready for you. I wanted to clarify what exactly is included on the CD. There are 5 files on the CD.

Glades Power Park: 3 files

I would like to mention that there are two properties on the Glades Power Park site. They are known as the "Lykes" property and the "Duda" property. The NRC Alternative Site Visits are visiting the "Duda" property of the Glades Power Park site. We have decided to include all cultural resources for both the "Duda" property and the "Lykes" property.

File Name: Recon 12-8-06.pdf

This report is entitled "Archaeological Reconnaissance Survey and Historic Resources Desktop of the FPL Glades Power Park Site, Glades County." It is dated December 2006. This file is included in the Site Certification Application for Glades Power Park (dated December 2006). This survey regards the "Lykes" property.

File Name: FDHR-1_8GL60 testing and visual impacts.pdf

This report is entitled "Report on Archaeological Testing of 8GL60 and Survey of Proposed Access Roads & Analysis of Potential Secondary and Cumulative Impacts to the Moore Haven Downtown Historic District (8GL411) and the Moore Haven Residential Historic District (8GL368)." It is dated February 2007. This is regarding the "Lykes" property. It was done after the Historical Reconnaissance included in the Site Certification Application for Glades Power Park (see above).

File Name: Duda Desktop.pdf

This file is a Memo to concerning "Desktop Analysis of the Duda Property for the Glades Power Project, Glades County." It is dated October 27, 2008. This regards the "Duda" property.

Martin Solar: 1 file

The Site Certification Modification for Martin Solar (dated May 2008) states that the proposed Martin Solar expansion utilizes a portion of the area already included in the original archaeological report within the Site Certification Application of the Martin Coal Gasification/Combined Cycle Project Site (dated December 1989). Thus there is **no** new cultural documents included in the Site Certification Modification for Martin Solar (dated May 2008).

File Name: **CulturalResourcesAssessmentMartinOct1989.pdf**

The report is entitled "Cultural Resource Assessment Survey of the Florida Power and Light Martin Coal Gasification/Combined Cycle Project Site, Martin County, FL." It is dated October 1989. It is the original archaeological report within the Site Certification Application of the Martin Coal Gasification/Combined Cycle Project Site (dated December 1989).

Clarification: 1 file

I am attaching a pdf version of this email in hopes of providing clarification of what documents are included and why.

File Name: **ClarificationEmail 07-14-2010.pdf**

A pdf version of this email.

Please let me know if you have any questions or concerns.

Sincerely,

Madison Martin
