MFN 10-223 Revision 1
August 13, 2010

U.S. Nuclear Regulatory Commission
Document Control Desk
Washington, D.C. 20555-0001

Subject: Correction to GNF Response to NRC Request for Review of Draft Safety Evaluation For Amendment 33 To Global Nuclear Fuel Topical Report NEDE-24011-P, “General Electric Standard Application For Reactor Fuel (GESTAR II)” (TAC NO. ME3525), August 6, 2010.

In Reference 1, Global Nuclear Fuel – Americas (GNF) submitted their response to the NRC request for review of the draft Safety Evaluation (SE) of Amendment 33 to GESTAR II. It has been noted that some GNF proprietary information was not properly removed from the non-proprietary Enclosure 1 of that letter. This error has been corrected in Enclosure 1 to this letter which is labelled Revision 1 to the Reference 1 letter.

GNF requests that Enclosure 1 of the August 9, 2010 MFN 10-223 letter be removed from ADAMS and replaced with the corrected Enclosure 1 from this letter.

If you have any questions about the information provided here, please contact me at (910) 819-5954 or Jim Harrison at (910) 819-6604.

Sincerely,

Andrew A. Lingenfelter
Vice President, Fuel Engineering
Global Nuclear Fuel–Americas, LLC

Project No. 712
