ATTN: J. C. Shepherd, NRC Project Manager
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555-0001

**San Onofre Nuclear Generating Station Unit 1
Docket No. 50-206**

Subject: Defueled Safety Analysis Report

Reference: Letter dated July 8, 2010, from D. Bauder (SCE) to Document Control Desk (NRC), Subject: San Onofre Nuclear Generating Station Unit 1, Docket No. 50-206, Defueled Safety Analysis Report

Dear Mr. Shepherd:

In the referenced letter, Southern California Edison (SCE) submitted the amended Defueled Safety Analysis Report (DSAR) for San Onofre Nuclear Generating Station Unit 1 (SONGS 1) on CD-ROM. The CD copies sent did not have Fast Web View enabled for one DSAR section. SCE is providing one new CD-ROM that has Fast Web View enabled for all sections. No other changes were made to the files.

There are no commitments contained in this letter or its enclosure.

Should you have any questions or require additional information, please contact Ms. Linda T. Conklin at 949-368-9443.

Sincerely,

Lloyd Wright for

Enclosure: SONGS Unit 1 DSAR CD-ROM
