DOCKET NO. 40-6639

U. S. Atomic Energy Commission
Division of Materials Licensing
Special Nuclear & Source Materials Branch
Washington, D. C. 20545

Gentlemen:

It is recommended that the attached application for renewal of AEC Source Material License No. SUB-459 for Frankford Arsenal be approved.

Supplement 4 to application processed in 1964 has been withdrawn and replaced with Standing Operating Procedure No. 3-65, Radiation Protection Program and Frankford Arsenal Regulation No. 700-14, Control of Source Material. All source material formerly held at this arsenal under SS Station Accountability has been transferred to AEC License No. SUB-459; SS Station AAB has been inactivated.

Sincerely yours,
