SUMMARY (Continue on Page 2)

Participants

NRC - Pamela Longmire, Ph.D. and Sarah Rich

NSPM - Glenn Adams, Lee Samson and Oley Nelson

Transnuclear, Inc - Don Shaw, Steve Streutker, Peter Shih and Raheel Haroon

NRC staff summarized the proprietary information submitted by NSPM for their amendment 7 application and response to requests for additional information (RAI). The two most recent affidavits submitted by NSPM describing proprietary information in their RAI response included Drawing 72-21, sheets 2 and 4. These sheets are not marked as proprietary and are similar to information previously submitted as non-proprietary.

Transnuclear concurred that there was no proprietary information on Drawing 72-21, sheets 2 and 4, and that the affidavit was meant to cover sheets 1, 3, 5, 6 and 7 of the same drawing. Transnuclear asked if it was necessary to submit a revised affidavit. The NRC staff stated that this was not necessary, and that it will be clarified in NRC's letter acknowledging the request to withhold proprietary information.

The call ended at 4:15pm EDT.
