Re: License Number 19-31246-01

03037466

To whom it may concern;

I am writing to request a change to radioactive materials license number 19-31246-01. The Radiation Safety Officer is changing from Kamau McAbee to Brianne Drankiewicz. Mrs. Drankiewicz is currently listed as KCI's Radiation Safety Officer for Maryland radioactive materials license number MD-13-020-01. She has also completed the Nuclear Safety Gauge training, and has worked with KCI's previous RSO (Christopher Eaton) in the past. She also works directly with KCI's safety officer with implementing their safety program.

If you have not already please update our address to;

KCI Technologies
936 Ridgebrook Road
Sparks, MD 21152

Please contact me if you have any questions regarding this request.

Respectfully,

James H. Shumaker
Vice President
410-316-7840
James.Shumaker@kci.com

North East Technical Services, Inc.

Certifies that

Brianne Drankiewicz

Has successfully completed North East Technical Services, Inc. Radiation Safety Officer Training Course for Nuclear Gauges, in accordance with Nuclear Regulatory Commission and current US DOT regulations.

Training materials are maintained at:

North East Technical Services, Inc.
75 Aileron Court, Suite 4
Westminster, MD 21157

Date of Completion: July 21, 2010

Instructor: Douglas C. Sims

North East Technical Services, Inc.

Certifies that

Brianne Drankiewicz

Has successfully completed the required radiological safety training for use of nuclear moisture density gauge in accordance with regulations set forth by the Maryland Department of the Environment and the Nuclear Regulatory Commission. Also has successfully completed training in accordance with policies set forth by the following rules and regulations governing Hazmat training requirements: 49CFR subpart H and IATA 1.5.2. Person listed above has demonstrated a thorough understanding of all aspects needed for transportation and specific emphasis was placed on portable nuclear density gauges. A closed book examination was administered and a passing score was achieved. Subjects included in this course were as follows: Radiological Safety – principles and practices of radiation protection, leak-testing procedures, measurement of radioactivity, biological effects of radiation, incident, storage, ALARA and emergency procedures. Class meets Agreement State and NRC regulations in accordance with license number MD-13-020-01.

A handwritten signature in cursive script, reading "Douglas C. Sims", is written over a horizontal line.

Instructor – Douglas C. Sims
